

Calculation Method of Cash Advance Fee and Interest on HNB Credit Cards

Calculation Method of Cash Advance Fee

- Cash withdrawal limit is currently 75% of the credit limit for HNB Visa Infinite, Mastercard World, Visa Signature, Visa Platinum, Mastercard Platinum, Mastercard Corporate and Mastercard Businesscard Credit Cards and 50% of the credit limit for all other HNB Credit Cards, and is determined at the sole discretion of the Bank. All cash advances are charged a fee of 3% on the withdrawal amount and will be debited to the cardholder's account separately.

Calculation Method of Interest on Purchases and Cash Advances

- The minimum grace period applicable for HNB Credit Cards is 25 days from the Statement Date, which will apply only for purchase transactions.
- A cardholder can enjoy up to a maximum of 55 days Interest free grace for a given transaction, based on the purchase (transaction) date and statement date.
- Interest calculation commences from the Transaction Date stated in the cardholder's card account in the statement, to the next statement date, on all revolving balances, w.e.f. 21st September 2021. Previously, the interest was calculated commencing from the Posting Date of the transaction/cash advance to the statement.
- In the event the Cardholder pays the full outstanding balance on or before the due date, there will not be any Interest charged on the purchase transactions to the card account for that billing cycle.
- Interest is calculated daily, transaction wise and the total amount will be printed in the monthly statement.
- The Interest calculation formula for HNB Credit Cards is as follows,

$$\text{Capital Outstanding} \times \text{Interest Rate} \times \frac{\text{No. of days}}{360}$$

* No of days – No of days to the end of the billing period from the transaction date

Interest Rate – The present Interest rate is 2.33% per month (28% p.a.)

Cardholder pays a partial amount (less than full outstanding amount and greater than the minimum amount) on or before the due date
