### **5.3 Benefits of Investing in the Debentures**

- Provides an opportunity to earn a regular cash flow of interest payments on a periodic basis, up to a fixed period of Five (05) years
- As per Section 9(o) of the Inland Revenue Act No.10 of 2006 as amended subsequently by Inland Revenue (Amendment) Act, No.18 of 2013, the interest income from any investment made on or after 01st January 2013 in corporate debt securities (i.e. debentures), quoted in any stock exchange licensed by the SEC is exempted from income tax. Furthermore, in terms of Section 13(xxxxxxx) of the same Act, the profits and income earned from any such investment has also been exempted from income tax. However, different tax treatment could be brought in by the future amendments to the same Act.
- Opportunity to realize capital gains according to interest rate fluctuations in the financial market. Also if held to maturity, there will be no capital loss incurred
- Listed Debentures provide the investor with an exit option through the CSE thereby bringing liquidity to these Debentures.
- These Debentures could be used as collateral to obtain both corporate and personal facilities from financial institutions, subject to the policies of those institutions.

## 5.4 Risks Involved in Investing in the Debentures

**Subscribers to the Debentures will be exposed to the following risks. It is vital to note that these risks are not unique to Debentures issued by Hatton National Bank PLC and apply generally to Debentures being issued.**

### Reinvestment Risk

The calculation for Annual Effective Rate (AER) assumes the investor is able to reinvest his coupons at the same interest rate. The investor who is paid periodic coupon faces the risk of investing these coupon payments to generate the required AER on his investment. Assuming the investor is unable to invest these coupon payments at the same interest rate on the Debenture, the Debenture Holder may not be able to generate the required AER. In case the investor can find an investment which yields a higher interest rate than the Debenture interest, the Debenture Holder can generate a higher AER by reinvesting the coupon in such instruments.

### Interest Rate Risk

The price of a Debenture will have a negative correlation with the market interest rates. Interest rate risk captures this relationship between market interest rates and the value of Debentures. If market interest rates rise, the value of the Debentures may fall: as market interest rates fall, the value of Debentures may rise (all other factors being equal). If the investor wishes to sell the Debentures prior to its maturity, he might be facing a capital loss/gain if the market interest rates have increased/decreased subsequently. Interest rate risk is irrelevant for the investor who wishes to hold the Debenture until maturity.

### Credit Risk / Default Risk

Risk of the Issuer not being able to pay interest and principal payments as promised on a timely basis is default risk/ credit risk. It is advisable for prospective Debenture investors to take into account the credit rating awarded to the Bank and its Debentures by Fitch Ratings Lanka Limited, present financial strength as reflected in the balance sheet of the Bank, assets and earnings growth, experiences and skills of the Directors and Senior Management when forming an opinion on default risk.

### Liquidity Risk

Liquidity risk refers to the ease with which the Debentures can be sold in the secondary market, after the initial placement. Since the Debentures are listed, should an investor require an exit option; they will be able to sell the Debentures through the CSE in order to convert them to cash and to exit from the investment. Therefore the liquidity risk is mitigated to a greater degree in the Debenture. Investors have to be mindful of the fact that even though the Debentures are listed, trading of listed debt is not at an advanced stage as the equity markets in Sri Lanka.

### Call Risk

Call risk refers to the risk that the issuer will retire all of the Principal Value of the Debentures before maturity. The risk to investor is in that, the timing of the call is not known and the investor will be faced with a re-investment risk in the event the call is made at a time when the market interest rates have declined.

The Debentures issued under this prospectus do not have a call option. However, according to CBSL's provisions on including subordinated term debt in to Tier II capital; the minimum original maturity of an instrument should be 05 years and no early repayment or redemption to be made without the prior consent of CBSL.

## 5.5 Subscription List

Subject to the provisions contained below, the subscription list for the Debentures will open at 9.30 a.m. on 16 March 2016 and will remain open for Fourteen (14) Market Days including the Issue Opening Date until Closing Date at 4.30 p.m. on 06 April 2016.

However, the subscription list will be closed on an earlier date at 4.30 p.m. with the notification to the CSE on the occurrence of the following;

- The maximum of 70,000,000 Debentures are fully subscribed; or
- The Board of Directors of the Bank decides to close the Issue upon the issue of 60,000,000 Debentures becoming fully subscribed
- The Board of Directors of the Bank decides to close the Issue upon the initial issue of 40,000,000 Debentures becoming fully subscribed

In the event the Board of Directors of HNB decides to exercise the option to issue the second tranche of 20,000,000 Debentures (initial Issue of 40,000,000 Debentures being fully subscribed) but subsequently decides to close the subscription list prior to full subscription of the second tranche, and/or;

further decides to issue the third tranche of 10,000,000 Debentures (Issue of 60,000,000 Debentures being fully subscribed) but subsequently decides to close the subscription list prior to full subscription of the third tranche, such decisions made shall be notified to the CSE on the day such decisions are made and the subscription list will be closed on the following Market Day.

## 5.6 Objectives of the Issue and Specific Risks Relating to the Objectives

Funds raised through this Debenture Issue will be utilized to further increase the Tier II capital of the Bank and to further strengthen the lending portfolio through loan disbursements. The Bank intends to utilize the entire proceeds of the Issue to expand its loan book in the ordinary course of business before end of financial year 31 December 2016. Further, the subordinated nature and long term tenor of the Debentures being issued will enable the Bank;

- a) To increase the Tier II capital base of the Bank in order to further enhance the Capital Adequacy Ratio
- b) To minimize mismatch of durations between assets and liabilities of Bank's balance sheet
- c) To strengthen the Bank's liquidity position and to increase the asset base

The Bank mobilizes funds from different sources such as deposits and borrowings to fund its loan book. As such, dependency on Debenture Issue proceeds is marginal in terms of expanding Bank's lending portfolio. It is the understanding of the Bank that the above mentioned objectives of the Debenture Issue will be achieved within the specified time line, by end of financial year 31 December 2016 as there is a strong growth in credit demanded by the private sector.

However, if the Bank fails to lend these funds due to a systemic risk (which is an improbable occurrence), the Bank would opt to invest the Debenture proceeds in Government Securities at zero default risk until funds are fully utilised. The process of utilisation of funds will be carried out with the necessary approvals of the Asset Liability Committee of HNB in the event the Bank fails to lend the Debenture funds within specific timeline.

Hence there are no significant risk factors that may lead to the non-achievement of IPO objectives within the specified time line.

The Company has issued LKR 3 Billion worth of senior Debentures in December 2014 with the intention of utilizing the funds for the on-going lending activities of HNB as part of its normal course of business. The objectives of the previous Debenture Issue were successfully achieved.

Further, CBSL approval is required for the purpose of raising funds via the Debentures and use of the same to the proposed objectives only in terms of subsection (a) of the objectives of the Debenture Issue. Also the Bank is in compliance with relevant CBSL requirement. CBSL approval has been obtained to include the value of the Debentures in Tier II capital base.

## 5.7 Interest

The Debentures will carry a fixed rate of interest of Eleven decimal Two Five *per centum* (11.25%) per annum, payable annually on the respective Interest Payment Dates (AER of 11.25% per annum) until the expiry of Five (05) years on the Principal Sum of the Debentures.

Interest on the Debentures would fall on the expiry of every Twelve (12) months from the Date of Allotment of the Debentures until the date immediately preceding the Date of Redemption on the outstanding Principal Sum.

The interest due on the Debentures for a particular interest period will be calculated based on the actual number of days (irrespective of holidays) in such interest period (actual/actual) and will be paid not later than Three (03) Working Days from each Interest Payment Date.

In order to accommodate the Debenture interest cycles in the ATS of the CSE, the payment of interest for a particular Interest Payment Date will include Debenture Holders holding Debentures in the CDS as of the Entitlement Date. Payment of the interest on the Debentures will be made after deducting any taxes and charges thereon (if any) in Sri Lanka Rupees as per the applicable law prevalent at the time of interest payment to the Debenture Holders.

As per Section 9 and 13 of the Inland Revenue Act No. 10 of 2006 (amended by Section 4 and 5 of the Inland Revenue (Amendment) Act No. 18 of 2013), the profits and interest income from any investment made on or after 01 January 2013 in corporate debt securities (i.e. Debentures) quoted in any stock exchange licensed by SEC is exempt from income tax.

## 5.8 Redemption

HNB shall redeem the said Debentures on the expiry of Five (05) years from the Date of Allotment in accordance with the provisions contained in the Trust Deed. Early redemption is applicable for the Debentures issued under this Prospectus. However, no early redemption to be made without the prior consent of CBSL.

On the Date of Redemption of the Debentures, the Bank shall in accordance with the provisions contained in the Trust Deed pay to the Debenture Holders the Principal Sum of the Debentures which ought to be redeemed and interest (if any) remaining unpaid up to the Date of Redemption of the Debenture.

If the Date of Redemption falls on a day which is not a Market Day, then the Date of Redemption shall be the immediately succeeding Market Day and interest shall be paid up to the date immediately preceding such Market Day (including holidays).

## **5.9 Payment of Principal Sum and Interest**

The Bank will redeem the Debentures on the Date of Redemption as specified in Section 5.8 and the interest payments will be made as specified in Section 5.7.

The payment of Principal Sum and Interest will be made either by cheque/s marked "Account Payee Only" dispatched to the address provided by the Debenture Holders to the CDS/Company Secretaries or Registrars where the Debenture Holders are registered in the Company register (where applicable) at the risk of the Debenture Holders or through an electronic fund transfer mechanism recognised by the banking system of Sri Lanka such as SLIPS and RTGS in the event accurate bank account details are provided. RTGS transfers however could be effected only for amounts over and above the maximum value that can be accommodated via SLIPS transfers (i.e. LKR 5,000,000/- as of the date of this Prospectus)

However, in the event such payment is over the maximum amount that can be accommodated through electronic fund transfer mechanism recognised by the banking system of Sri Lanka or if the Debenture Holder has not provided to the CDS accurate and correct details of his/her bank account for the payment of Principal Sum and Interest, such payment to the Debenture Holder will be made by way of a cheque and sent by post at the risk of the Debenture Holder.

The payment of Principal Sum and Interest will be made in Sri Lanka Rupees in favour of the Debenture Holders as of the Entitlement Date. In the case of joint Debenture Holders, the payment of Principal Sum and Interest will be made to the one whose name stands first in the register of Debenture Holders.

- Subject to provisions contained in the Trust Deed, the Bank may register without assuming any liability any transfer of Debentures, which are in accordance with the statutory requirements and rules and regulations in force for the time being as laid down by the CSE, SEC and the CDS.

- In the case of the death of a Debenture Holder
  - The survivor where the deceased was a joint holder; and
  - The executors or administrators of the deceased (or where the administration of the estate of the deceased is in law not compulsory, the heirs of the deceased) where such Debenture Holder was the sole or only surviving holder; shall be the only persons recognized by the Issuer as having any title to his/her Debentures.
- Any person becoming entitled to any Debenture in consequence of bankruptcy or winding up of any Debenture Holder, upon producing proper evidence that such Debenture Holder sustains the character in respect of which such Debenture Holder proposes to act or such Debenture Holder's title as the Board of Directors of the Bank thinks sufficient, may at the discretion of the Board be substituted and accordingly, registered as a Debenture Holder in respect of such Debentures subject to the applicable laws, rules and regulations of the Bank, CDS , CSE and SEC.

The best risk within a country is rated 'AAA' and other credits are rated only relative to this risk. National ratings are designed for use mainly by local investors in local markets and are signified by the addition of an identifier for the country concerned, such as 'AAA(lka)' for National ratings in Sri Lanka. Specific letter grades are not therefore internationally comparable.
